To All Concerned,

I have serious concerns regarding the proposed Music Festival "Jack up the eighties" the weekend of August 10th-11th. I live down Bathingbourne Lane opposite the field and in very close proximity to the location. The following weekend August 17th-18th we have already had a week of disruption due to the Garlic Festival. Taking into consideration the setting up of both these festivals and also dismantling of the site we are looking at a minimum of two weeks havoc!!

[REDACTED]

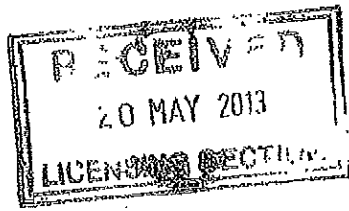

The main road through Arreton to Sandown is already an extremely busy link road, especially during the summer holidays and with two weekends of noise and chaos in the area it will really impact on all the residences, holiday families and businesses in the area. During the Garlic Festival the road is pretty gridlocked, queues of cars as far back as Arreton village, this extra second weekend is really extremely unfair to all those living and working in this area. Also it does impact on holiday visitors with children staying at the nearby campsites and those driving from Sandown to Newport.

Please acknowledge my concerns that I have raised in this letter.

Yours Sincerely

[REDACTED]
Mrs U.M.Thompson.

14th May 2013

To All Concerned,

We are writing on behalf of Thompson's Garden Centre and Thompson's Nursery. We have been informed that as well as the Garlic Festival week-end there is a proposed Music Festival the week-end before. We are very worried that not only will we have two weekends where we lose all our customers but real concerns about security. We have in the past when other events (not the Garlic Festival) have taken place had damage to the Glasshouse, nursery and Garden Centre. Stock has been stolen and there has been mindless vandalism.

[REDACTED]
[REDACTED] What protection will be set up for local residents and businesses?

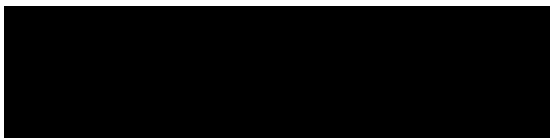

[REDACTED]
[REDACTED]
Because of the chaos caused by extremely high volume of traffic the main road from Newport to Sandown will be totally congested.
[REDACTED]
[REDACTED]

Also the number of people and amount of noise and disruption for two weekends is not acceptable. Several bands means high levels of noise, also licences for the sale of alcohol can again aggravate unacceptable behaviour and damage to property.

Please be aware of our many concerns and anxiety for protection against noise and disruption. We feel the location is quite unsuitable for a Music Festival.

MR M. GRIGG GARDEN CENTRE MANAGER
Thompson's Garden Centre and Nursery

COMMENTS: My Tourist Accommodation business and home adjoins the Garlic Festival site of this proposed Music Festival. The Applicant has made no attempt to warn residents or businesses, such as myself, in the vicinity so that we can plan ahead for the traffic disruption and music noise of the event. Such a basic business courtesy does not really inspire confidence in their other arrangements for the event. For us, such planning ahead will include now warning any of our own customers, during the proposed weekend, of the likely disruption and noise.

[REDACTED] Finally, it is hardly fair that this is held on back to back weekends with the annual Garlic Festival giving more than two weeks of disruption including the continuous noise from the Fun Fair's diesel generators.
